

TaxView[®]

A single, turnkey SaaS Solution that Makes Tax Accuracy Easy

How much are sales and use tax errors costing you? For most companies, the answer is shocking. Over payments, under payments, and non-compliance can easily cost companies hundreds of thousands of dollars each year. Ideal for complicated tax requirements, TaxView brings clarity and huge savings to your use tax function. Our turnkey solution is configured at a granular level with all applicable tax rules for your business to calculate the proper amount of tax on every purchase.

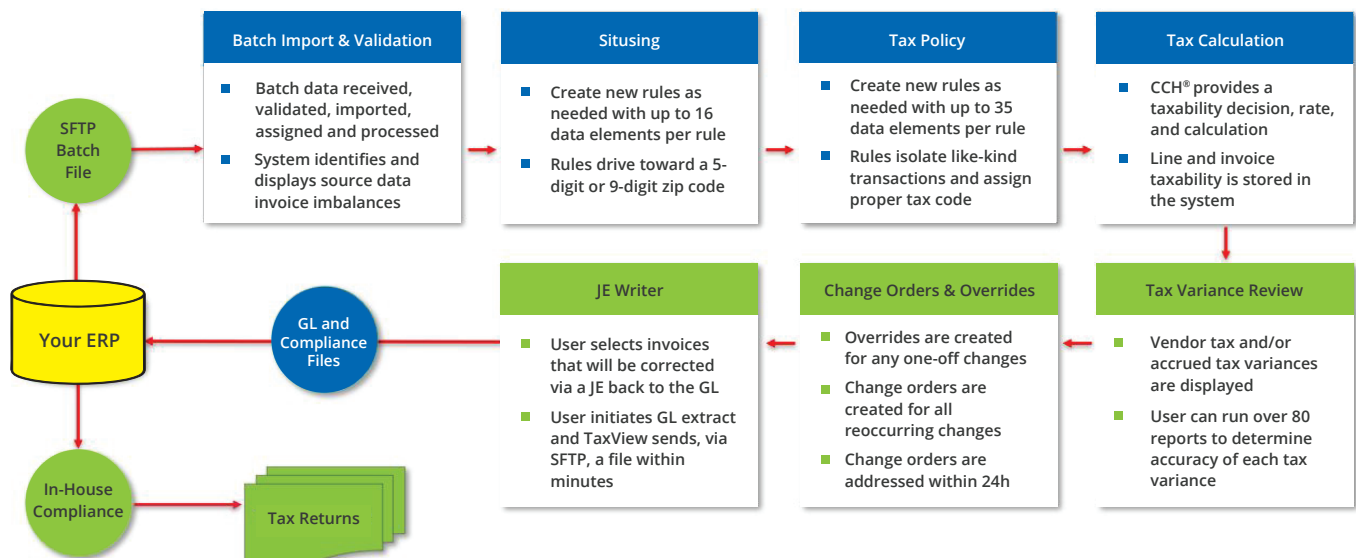

Smart rule building Technology

- TaxView is a “no-default” tax accrual and audit solution, meaning every imported transaction MUST be assigned to a valid Tax Siting and Tax Policy rule.
- TaxView is configured to receive and store up to 160 different data fields for every imported invoice/distribution line.
- TaxView can leverage up to 16 different data fields, either on a standalone basis or in concert with each other, to determine the proper situs for every imported line.
- TaxView can leverage up to 35 different data fields, either on a standalone basis or in concert with each other, to determine the proper purchase classification for every imported line.
- TaxView can leverage up to 20 different “operators” for every data field used in a rule. Such operators include, but are not limited to: is null, is not null, is one of, is not one of, starts with, ends with, etc.

Quick Facts

- Developed for large companies to identify and correct all purchase-side tax errors on a regular basis
- Provides the exact dollar amount of tax that was paid to vendor and/or internally accrued
- Contains a robust data warehouse that can be queried for audit, compliance, and research activities
- Onboard in 8 to 10 weeks, with just 1 to 2 weeks of client involvement
- No integration, as everything is done via secure data extracts

A Monthly Workflow that makes Sense

Affordably Priced

DTS guarantees at least a **2x ROI** or the service is **free**

TaxView Fees

Diagnostic Review (optional)	\$0 - \$35K (creditable within 30 days)
Set-up Fee	\$65K
Fixed Monthly Service Fee	Starts at \$6,000

“TaxView provides unparalleled visibility, flexibility, and configurability so the system fits how we need to manage our purchase-side tax data. It helps us quickly identify errors and take corrective action long before a state audit happens.”

-Tax Director, Fortune 500 Consumer Products Manufacturer
